## SEED AND GRAIN

**Amber Winter Rye.**—It is being demonstrated more clearly every year that the Rye crop is one of the best paying crops which farmers in this section of the Northwest can raise. The Rye acreage in North Dakota and surrounding States for 1922 and 1923 is one of the largest on record, and the total crop is tremendous. If you are not a Rye raiser, get started now. You will find it pays you.

Per bushel of 56 lbs., ..... \$ .75

ROSEN WINTER RYE

**Rosen Winter Rye.**—This variety of Rye was introduced by Prof. Spragg of the Michigan Agricultural College, who developed it from a handful of Rye which was brought to him by a Russian student at his College. This variety has exceptional characteristics, and is very rapidly replacing other varieties in Michigan, Wisconsin and Minnesota. It is becoming more extensively raised in North Dakota from year to year, having been started in this state about five or six years ago. The Rosen Rye produces a strong, hardy straw, and stools to a remarkable degree. The grain is large, plump, heavy, and of a beautiful color, commanding a premium on the market over common varieties. Owing to its vigorous stoeing, about three or four pecks per acre is all the seed that is required.

Per bushel of 56 lbs., ..... \$ .85

**Minnesota No. 2, Winter Rye**—Is a new variety developed by the Minnesota Experiment Station. It is somewhat larger than the common Amber Rye, and is considered a somewhat better yielder. The berry is large and plump, being about half way between the Amber Rye and the Rosen Rye. It is a very good yielder and is highly recommended by a great many farmers who have raised it for several years.

Per bushel of 56 lbs., ..... \$ .80

**North Dakota No. 9, Winter Rye**—A large seeded type of Russian Rye distributed by Prof. Bolley of the N. D. Agricultural College. A splendid yielder and considered the best of the large varieties of Winter Rye.

Per bushel of 56 lbs., ..... \$ .90

**North Dakota No. 959, Winter Rye**—A perfectly hardy variety introduced and distributed by the Agronomy Department of the N. D. Agricultural College. A good yielder and while the seed is not as large as the Russian varieties it is recommended because of the extreme hardiness.

Per bushel of 56 lbs., ..... \$ .90

**Turkey Red Winter Wheat.**—This variety is the old standard Winter Wheat which has been raised in this section of the Northwest for a great many years. There was a larger acreage of Winter Wheat planted in the fall of 1922, than for a good many years previous to that and indications point to the probability that this variety is gradually becoming so well acclimated that it will be practically as safe to raise as Winter Rye. Our supply of this Wheat is strictly Northern grown, and with normal weather conditions during the Winter and Spring of 1924, this seed is certain to produce a crop. Its main advantage lies in the fact that it gets a head start as compared with Spring Wheat, and is out of the way of hot summer winds and rust on that account.

Per bushel of 60 lbs., ..... \$1.50

**Minturki Winter Wheat.**—A comparatively new variety introduced by the Minnesota Experiment Station. This wheat is considered the hardest winter wheat for this territory and is being grown successfully where it is given slight protection. Our supply comes through the Minnesota Crop Improvement Association.

Per bushel of 60 lbs., ..... \$2.00

# F A R G O S E E D H O U S E

MEDIUM RED CLOVER

**Medium Red Clover.**—This is a choice hardy lot of heavy dark colored clover grown in Northern Minnesota, which we recommend most highly for sowing here in North Dakota.

Per 100 lbs. .... \$19.00

**Mammoth Red Clover.**—Of high value for both hay and pasture. Produces well on light sandy soil. Minnesota grown seed.

Per 100 lbs. .... \$19.00

**Alsyke Clover.**—One of our hardiest varieties which does well even on low moist land and withstands pasture better than the Red Clovers. Minnesota grown. Per 100 lbs. .... \$18.00

**White Dutch Clover.**—A low growing variety which will stand very close cutting and pasture. Much used as a mixture with other permanent grasses.

Per 100 lbs. .... \$65.00  
Small lots, per lb. .... .75

**Timothy and Red Clover.**—Choice Minnesota grown with a sprinkling of Red Clover, just as grown together.

Per 100 lbs. .... \$8.00

**Timothy and Alsyke Clover.**—This represents a mixture just as grown together and the sprinkling of Clover is just right to make excellent hay.

Per 100 lbs. .... \$8.00

**Timothy.**—Is the most important of all hay grasses as it adapts itself to such a wide range of soil and climatic conditions.

Per 100 lbs. .... \$6.00

**Red Top.**—Is a native of our Northern prairies and adapts itself especially to low moist lands. Makes very fine hay and pasture and is much in demand for mixing with other grasses.

Per 100 lbs. .... \$25.00

**Kentucky Blue Grass.**—Makes the choicest of pasture for all kinds of stock, is very hardy and withstands the extreme temperatures of our coldest winters as well as the dry hot summers.

Per 100 lbs. .... \$35.00

**White Flowering Biennial Sweet Clover.**—A valuable plant for both hay and pasture; also of high value as soiling crop. At present prices no farmer can afford not to plant a few acres every year. It is the greatest soil builder which can be grown in this territory and thrives well on every kind of land under any conditions.

Per 100 lbs. .... \$9.00

Per 100 lbs., Scarified .... \$9.50

**Yellow Flowering Biennial Sweet Clover.**—Preferred by some stock raisers because it grows a somewhat finer hay than the white flowering variety.

Per 100 lbs., Scarified .... \$10.00

**Alfalfa, Montana Grown.**—Produced on non-irrigated land and from some of the oldest and best established fields in the State. This is hardy, vigorous seed, high in purity, and stock which we can recommend to our trade as having been grown on non-irrigated fields.

Per 100 lbs. .... \$20.00

**Alfalfa, Grimm, North Dakota Grown.**—Is characterized by spreading roots instead of one main tap root; it also has a much wider crown than other varieties and is noted for its heavy stolting tendency. Our stocks are strictly Northern grown and come from only such fields on which growers are able to make affidavits to the fact that they are furnishing the genuine Grimm variety.

Per 100 lbs. .... \$40.00

**Cossack Alfalfa.**—Developed by Prof. N. E. Hanson of the South Dakota Agricultural College. It is an extremely hardy vigorous growing variety and recovers very quickly after cutting. Conceded by many authorities to be the best all around Alfalfa for the dry upland prairies of this territory.

1 lb. .... \$.75

10 lbs. .... 7.00

100 lbs. .... 60.00

# F A R G O   S E E D   H O U S E

**Alfalfa, North Dakota Grown.**—Raised in Cass County on some of the oldest fields in the State. Choice bold seed which is very hardy.

Per 100 lbs. .... \$20.00

**Alfalfa, South Dakota Grown.**—Grown out in the Black Hills district under dry farming conditions on old fields which have withstood many winters, so we can recommend this stock as being perfectly hardy and of highest purity.

Per 100 lbs. .... \$19.00

**Nitragin.**—For Clover Alfalfa inoculation. First quality Nitragin-fixing bacteria which makes positive a good catch the first season.

Package for  $\frac{1}{2}$  bushel, or 30 lbs. seed. .... \$ .55

Package for 1 bushel, or 60 lbs. seed ..... 1.00

**Bromus Inermus.**—The great drought and frost resisting grass for both hay and pasture. It starts in the spring two weeks earlier than the native prairie grasses and is still green in the fall after all other varieties are dead. Choice seed which we recommend as quack free.

Per 100 lbs. sacked ..... \$9.00

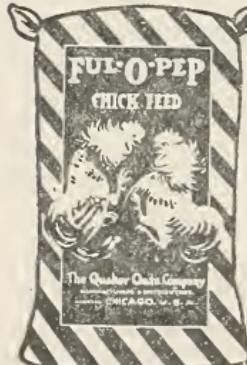

**Slender Wheat Grass.**—(Often called Western Rye Grass). Affords excellent pasture and provides large quantities of hay; will thrive under very dry conditions on light soil; also thrives on alkali soil where other grasses fail.

Per 100 lbs., sacked ..... \$7.00

**We Give No Warranty, Expressed or Implied, as to Quality, Description, or Productiveness or Any Other Matter of Any Seeds We Send Out, and We Will Not Be, in Any Way, Responsible for the Crop.**

## POULTRY FEEDS

**FUL-O-PEP POULTRY FEED.**—This line of feed is manufactured by the Quaker Oats Company of Chicago, Ill., and is recognized by poultry experts the country over as being one of the best lines of poultry feeds on the market today. The Quaker Oats Company employ the most expert poultry men obtainable with the result that the various feeds are all made according to scientific formula and methods. Write for 1923 Ful-O-Pep Poultry Calendar. It is free.

**FUL-O-PEP DRY MASH.**—This mash is unexcelled to stimulate egg production with laying hens. It combines all the required ingredients to produce the maximum results.

Per 100 lbs., sacked ..... \$4.00  
Per 50 lbs., sacked ..... 2.25

**Ful-O-Pep Scratch Grain.**—Feed this in conjunction with your Dry Mash. Per 100 lbs., sacked ..... \$3.50

**FARGO BRAND LAYING MASH.**—Prepared in our own plant according to formula furnished by the Poultry Department of the North Dakota Agricultural College.

100 lbs., sacked ..... \$3.25      50 lbs., sacked ..... \$1.75

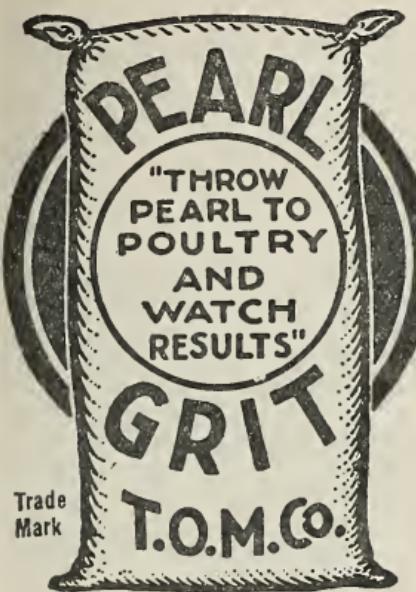

25 lbs., sacked ..... \$1.00

**BLATCHFORD'S CHICK MASH.**—A splendid feed for baby chicks as the first feed to be given after hatching.

Per 100 lbs., sacked ..... \$4.75      Per 25 lbs., sacked ..... 1.25

**BLATCHFORD'S EGG MASH.**—A fine feed for laying hens and produces excellent results by way of stimulating egg production.

Per 100 lbs., sacked ..... \$4.00      Per 25 lbs., sacked ..... 1.25

LIMESTONE GRITS.—

Per 100 lbs., sacked..... \$1.00

PEARL GRIT.—The double purpose grit. It is sharp, clean, white and nutritious. It imparts strength and vigor to young chicks and is most excellent for laying hens. Feed to grown hens and you will increase their egg production. It is prepared in three sizes, for baby chicks, growing chicks and full grown. State size wanted.

100 lbs., sacked..... \$1.25  
50 lbs., sacked..... .75  
25 lbs., sacked..... .50

GRANULATED BONE.—A fine conditioner for laying hens.  
Per 100 lbs., sacked..... \$4.25

GRANULATED CHARCOAL.—A certain percentage of Charcoal in the feed supply of poultry is quite essential to prevent fermentation and accompanying disorders., 50 lbs. sacked \$2.50

ALFALFA MEAL.—Consists of finely chopped Alfalfa hay and it is quite essential during the winter months in taking the place of green feed unobtainable at that time, per 100 lbs., sacked..... \$2.50

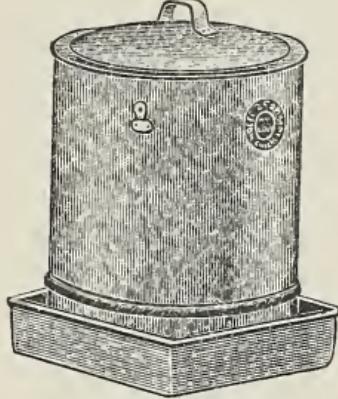

RED SEAL MEAT SCRAPS.—A very high protein feed which is very effective in increasing egg production, per 100 lbs., sacked..... \$5.00

FARGO BRAND SCRATCH FEED.—Made according to scientific formula from various whole grains, per 100 lbs., sacked..... \$2.25

POULTRY SUPPLIES

MOE'S IMPROVED TOP FILLED DRINKING FOUNTAINS.—This is a very handy fountain as it can be filled from the top by removing the cover, thus avoiding the necessity of laying it on its side. The fountain filled in the morning will provide a full day's water supply for your chickens.

Each  
No. 1, shipping wght. 4 lbs., 1 gal. size.... \$2.00  
No 2, shipping wght. 7 lbs., 2 gal. size.... 2.75  
No. 4, shipping wght. 9 lbs., 4 gal. size.... 3.75

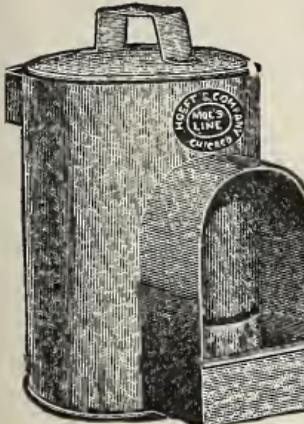

MOE'S WALL FOUNTAIN.—A large capacity fountain, splendidly made from heavy galvanized iron. Capacity five gallons. Shipping weight, 6 lbs., price each..... \$2.25

MOE'S DRY MASH HOPPER.—Made of heavy galvanized iron. This is a hopper of great merit. The wire grid running across the opening prevents the fowls from wasting the feed. The sloping top with cover makes the hopper both rat proof and weather proof. Made in three sizes.

No. 35—width, 8½ in., shipping weight, 4½ lbs..... each \$1.75  
No. 36—width, 12 in., shipping weight, 6 lbs..... each 2.25  
No. 37—width, 24 in., shipping weight, 11 lbs..... each 3.15

MOE'S BOTTOM FILL FOUNTAINS.—This is a well designed inexpensive drinking fountain made in two pieces, and is filled by merely removing the top cone and placing it on end.

No. 19, 1 qt. size, shipping weight 1 lb..... each \$.50  
No. 20, 2 qt. size, shipping weight 1¼ lbs..... each .75  
No. 24, 1 gal. size, shipping weight 2 lbs..... each 1.00

MOE'S IMPROVED WALL FOUNTAIN.—This fountain is designed to keep the water absolutely clean by a guard around the outlet which prevents dust and dirt from getting in, and also a guard which prevents floating rubbish from being drawn into the reservoir.

No. 97, 2 qt. size, weight 2¼ lbs..... each \$.60  
No. 98, 1 gal. size, weight 3 lbs..... each 1.00  
No. 99, 2 gal. size, weight 4 lbs..... each 1.25

MOE'S FEED TROUGH

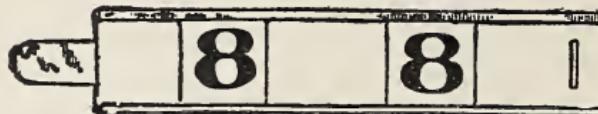

# F A R G O S E E D H O U S E

CELLULOID SPIRAL LEG BANDS.—Best quality, made in ten colors, and in three sizes—for turkeys, chickens and baby chicks.

12 bands.....	\$ .15	50 bands.....	\$ .50
25 bands.....	.30	100 bands.....	.75

ALUMINUM LEG BANDS WITH COLORED NUMBERS.—These bands are especially desirable for large flocks of poultry where it is desired to read the number without the necessity of catching each individual foul.

25 bands.....	\$ .75	100 bands.....	\$ 2.50
---------------	--------	----------------	---------

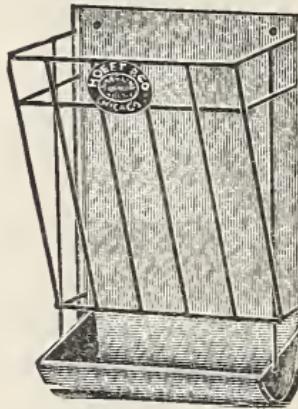

## ALUMINUM LEG BANDS

No. 130.—Extra large raised numbers easy to read. Adjustable to any size

No. 67, Nest Eggs, weight 2 lbs., per dozen..... \$ .55

## QUEEN BROODER STOVES

We pay freight; these prices are delivered to you.  
No. 1, 600 chick size..... each \$21.50  
No. 2, 1200 chick size..... each 26.50

**Moe's Oats Sprouter.**—This is an ideal device for providing your poultry with green feed during the winter months. The frame is made of heavy steel.  
Shipping weight, 30 lbs., each..... \$7.00

**Moe's Fountain Heater.**—This little heater solves the problem of having a fresh supply of warm water at all times during the winter weather.

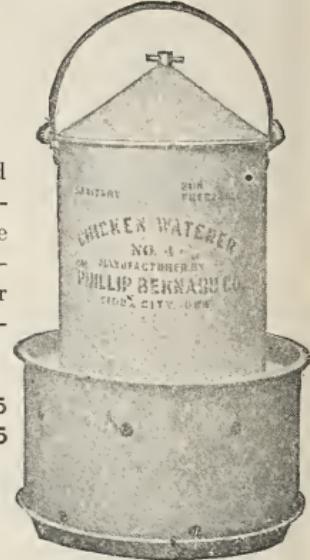

No. 10, shipping wgt., 5 lbs., ea.... \$2.25

# FARGO SEED HOUSE

**LITTLE PUTNAM STOVE.**—This stove is nine inches in diameter and four inches high. It is made up of galvanized iron and equipped with a burner which embodies an entirely new principle in oil combustion. The oil tank holds three pints of Oil and burns three to four weeks without refilling or any other attention; shipping weight 2 lbs. Each..... \$2.00

**Chicken Waterer**—Made entirely of galvanized iron. Built to meet the requirements of every poultry raiser. Sanitary water is a disease preventative and when provided at the right temperature is assurance that the hens will lay regularly. The heater is equipped with a galvanized lamp with large burner and a smokeless chimney.

Price each complete with heater, 5 gal. size..... \$4.75  
Price each complete with heater, 10 gal. size..... 7.75

## POULTRY REMEDIES

**DON SUNG EGG LAYING TABLETS.**—Don Sung gets the eggs in any weather. It acts directly on the egg laying organs and is beneficial in every way. Keeps the flock healthy and happy. It is easily given and inexpensive. Price small package..... \$.50 Price large package..... \$1.00

**PRACTICAL POULTRY PRODUCTION.**—A standard book on the subject of poultry raising, either on a small or large scale. The book is compiled by Harry M. Lamon, senior poultryman of the Bureau of Animal Husbandry of the United States Department of Agriculture, and Jos. Wm. Kinghorne, junior poultryman of the Bureau of Animal Husbandry of the United States Department of Agriculture. It is a very complete treatise, thoroughly illustrated, bound in cloth, and will be found very useful for both the amateur as well as the professional poultry man.

Price each..... \$2.00

**Stanfield's Lice Kill for Poultry.**—Price each in tubes..... \$.50

**Revenge Lice Destroyer.**—Satisfaction Guaranteed. It is also valuable used in dust boxes and nests.

Price each, 3 lb. can..... \$1.00 1 1/2 lb. can..... \$.65

**Carbola.**—This preparation is used instead of whitewash, and also as a disinfectant. It is better than whitewash because it dries perfectly white, and adheres to the walls, ceiling, etc., better than whitewash. It is a splendid disinfectant for use in barns, poultry houses, cellars, etc., and yet is non-poisonous. It can be sprayed on the doors and feed boxes of poultry houses without any danger of the poultry being poisoned from it. In addition to its disinfectant qualities, it also helps to maintain sanitary conditions by making

the inside of all buildings much lighter, and light itself is a splendid disinfectant. It is a whitewash and disinfectant combined in powder form that is ready to use as soon as mixed with water, and is applied with brush or spray pump. It makes work easy, saves time, and gives better results.

## FEED AND LIVESTOCK SUPPLIES

**RED SEAL DIGESTER TANKAGE.**—Red Seal Tankage has a guaranteed protein content of 60 percent. It is a meat product made from meat scraps and fatty materials properly cooked under high pressure, and is very palatable to hogs. A regular feeding of tankage in the ration makes heavier hogs, reduces the cost of feed, and builds bone and muscle.

Per 100 lbs., sacked..... \$ 4.00

**COTTON SEED MEAL.**—This feed is a by-product of Cotton Seed Oil, and is a high protein feed, costing somewhat less than oil meal. It has been found to be a valuable addition to the ration for cattle and other live stock, and is much in demand.

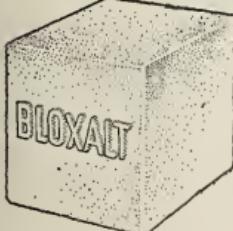

Per 100 lbs., sacked..... \$ 3.00

**DRIED BEET PULP** is very palatable to milk cows and other livestock, as it is a by-product of beet sugar factories. It contains a high percentage of protein, and produces excellent results.

Per 100 lbs., sacked..... \$ 3.00

**SALT BLOCKS.**—For pasture use it is very convenient to have your salt supply in block form, as the blocks may be set out in the pasture where the stock can get at it at any time during the day. These blocks weight 50 pounds each, and are easy to handle.

50 lb. blocks, each..... \$ .85

# F A R G O S E E D H O U S E

**CAREY-IZED STOCK TONIC BLOCKS AND BRICKS** serve a double purpose in furnishing the necessary salt required for horses, cattle, sheep and hogs, combined with medicinal ingredients which act as a tonic and worm killer. The 3-lb. bricks are packed twelve to the carton, being designed for use in mangers and feed boxes. The 50-lb. blocks are packed separately, each container having the chemical analysis printed on the exterior.

12, 3-lb. bricks, per carton.....	\$2.00
50-lb. blocks, each.....	1.50

**BUFFALO CORN GLUTEN FEED.**—This preparation is easily digested, and contains a minimum of 23 percent protein, and it is a splendid feed for dairy use as over 75 percent of the weight is available for milk production.

Per 100 lbs., sacked.....	\$2.50
---------------------------	--------

**STOCK AND DAIRY SALT.**—Every livestock raiser knows that he must have a supply of pure salt on hand to keep his livestock in the best condition. Cutler-Magner Salt comes put up in 50 and 100 pound bags and is very convenient for use in this form.

50 lb. bags, each.....	\$ .90
100 lb. bags, each.....	1.60
300 lb. barrels, each.....	4.25

## BLATCHFORD'S CALF MEAL.—

This preparation is made for the express purpose of enabling you to raise calves without milk. By closely following the instructions which are given with each package, practically 100 percent results are obtained in producing strong healthy calves at a much less cost than raising them on milk. It is easy to feed, and the directions are simple. It is only necessary to mix the calf meal with hot water, and feed three times a day.

25 lb. sacks, each.....	\$1.25
50 lb. sacks, each.....	\$2.25
100 lb. sacks, each.....	\$4.50

**BLATCHFORD'S PIG MEAL** is a concentrated food fed the same as milk, containing just the right percentage of vegetable protein, fat, carbohydrates, etc., to be a real milk substitute and to fit the particular needs of the infant pig.

25 lb. sacks, each.....	\$1.25
100 lb. sacks, each.....	\$4.00

**LINSEED OIL MEAL.**—A high protein feed obtained from Flax as a by-product of Linseed Oil Mills. It is a 36 percent protein feed and comes packed in 100 lb. bags.

Per 100 lbs., sacked.....	\$3.00
---------------------------	--------

Bran.—Sacked, per 2000 lbs.....	\$28.00
Shorts.—Sacked, per 2000 lbs.....	29.00
Ground Corn and Oats.—Sacked, per 2000 lbs.....	33.50
Ground Corn.—Sacked, per 2000 lbs.....	38.00
Ground Oats.—Sacked per 2000 lbs.....	30.00
Ground Barley.—Sacked, per 2000 lbs.....	25.00
Ground Barley and Oats.—Sacked, per 2000 lbs.....	27.50

# F A R G O S E E D H O U S E

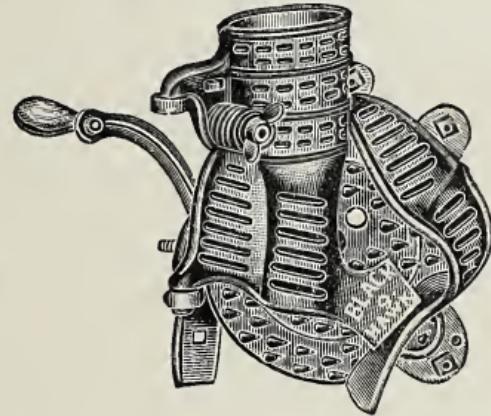

**CHAMPION DOG BISCUIT.**—These biscuits, made by the Champion Animal Food Company, are prepared according to scientific formula and are a complete food in themselves. Dogs fed on these biscuits need no other food whatever, and are kept in the best of condition.

5 lb. cartons, each..... \$ .75  
50 lb. boxes, each..... 6.00

**FELIX GIRARD RED CROSS RAT AND MOUSE EMBALMER.**—This is an excellent preparation for ridding houses, stables, poultry houses, etc., from both mice and rats. It is a very quick acting poison, and should be mixed with fish or chopped meat. It acts as an embalming material on the rodents so that they dry up and leave no odor whatever. Made in three sizes. \$ .50—\$1.00 and \$3.00.

**Black Hawk Corn Sheller.**—One of the best hand shellers manufactured, and always gives excellent satisfaction. It shells the corn thoroughly with minimum effort. It will clamp firmly into place on any barrel, box, tub, or bin. There are no holes to bore, and no tools are required to set it up.

Shipping weight 15 lbs., ea..... \$3.15

## MISCELLANEOUS SUPPLIES

**MOSHER BAG HOLDER.**—This is a very handy and efficient holder which will handle all sizes of bags from the 48 pound flour sack to the 6-bushel cotton bag. It is well made with malleable iron jaws, wrought iron pipe standards with heavy steel spring. Shipping weight 20 pounds.

Each..... \$5.00

### THE CYCLONE SEED SOWER.—

One of the best hand grass seeders on the market.

Price each..... \$2.00

THE SOWER THAT SCATTERS EVENLY

**BURLAP POTATO BAGS.**—The bags which we are offering are full two bushel size, measuring 40x48, and are made out of 7½ ounce burlap. A splendid potato bag which can also be used for feed. Bales of 500 each. Per 100..... \$11.00 Per 100 in bale lots..... \$10.50

**SEAMLESS COTTON GRAIN BAGS.**—We buy only the standard makes of seamless grain bags which are made from 16-oz. cotton cloth. These first quality bags usually cost a little more than some of the lighter weight bags but they are fully worth what they cost in added satisfaction.

Per 100..... \$50.00

**SEWING TWINE.**—This is a heavy 4 ply jute twine made of the best jute obtainable. It is put up in skeins so that it is easy to use, and gives excellent satisfaction for either sewing potato bags or grain bags. Requires about 7 lbs. for 1000 bags.

Per pound..... \$ .35

**SACKING NEEDLES.**—Straight 5-inch needles, commonly used for potato sacking.

Per dozen..... \$1.00 Each..... \$ .10

## FARGO SEED HOUSE

**Wire Potato Baskets.**—This year we are offering three different styles of potato baskets which vary some in price, but are all well constructed and are sure to give excellent satisfaction.

**No. 1, Wire Basket.**—This is a half bushel basket made from No. 14 wire with diagonal mesh. The basket is galvanized throughout by the hot process method so that each joint in the basket is securely welded together. The top and bottom rings, as well as the center ring and bale are made of No. 9 wire. Each.....\$1.00

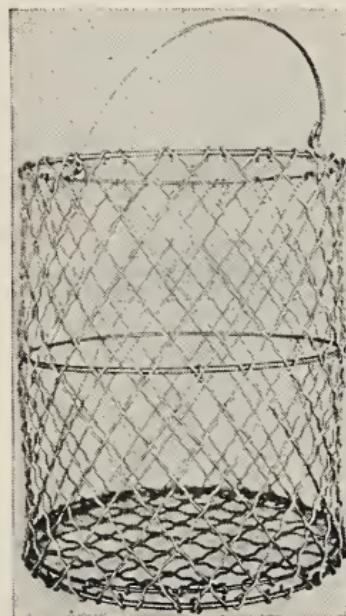

No. 1

No. 2

**No. 2, Wire Basket.**—For those potato raisers desiring a heavier basket with a slightly flaring top, this is an ideal basket. It is constructed of No. 12 wire with top, center and bottom rings made of No. 6 wire. It also has a heavy bale made of No. 4 wire, and is a very staunch sturdy basket with a long life. The flaring sides permit of easy shipment, and also ease in dumping the potatoes from the baskets into the bags.

each.....\$1.25

No. 3

**No. 3, Wire Basket.**—This is what is commonly known as the straight side wire basket. Like the other two baskets which we are offering, it is a half bushel capacity, but instead of flaring it is practically straight from top to bottom. It is well constructed of No. 12 wire with diagonal mesh, with heavy top center and bottom rings, and heavy bale.

Each.....\$1.25

(ALL BASKETS HALF BUSHEL SIZE)
